

"So I walked in to the Pacific Palisades Junior Women's Club 2009 Home Tour and saw Natasha Quinn Page at her finest!! Each home on the tour was beautiful but nothing touched Natasha's commitment to the project, attention to detail, and beautiful overall style that is her own finest of interior design. As I visited each home, I marveled at the people just stopping to take in Natasha's work. They stayed and gasped at the beauty in every room. Her eye is remarkable, her overall effect is unparalleled, and if I were to work with a designer on my home, it would only be Natasha."
